Search: Social Media for Network Marketing

It's no wonder that network marketers, as a group, are confused about social media marketing.

There are over 420,000,000 (MILLION) websites
that provide information about SOCIAL MEDIA MARKETING
for the network marketing industry.

Social Media Marketing is Personal

To keep it simple, the main point to understand is that social media marketing is all about personal, relevant, 1-to-1 communications that is particularly interesting to the people viewing your posts.

Social Media Communication is NOT Selling

When communicating on your newsfeed, in groups, or in private messaging do not try to sell iXQtv on your first message – your listeners will likely see your attempt at selling as a SCAM and run away from you quickly.

People are on Social Media to Connect and Be Social

The reason they run from sales messages is NO ONE is on social media to be sold.

They are on social media to be SOCIAL. That's why personal, relevant, and 1-to-1 communication is the key to successful social media marketing.

In the Beginning, Don't Mention the Company Name

It's important not to mention the iXQtv company name on your newsfeed or in group posts.

The reason is, when you do, you eliminate curiosity in the beginning.

You Lose the Chance for a Memorable 1st Impression

People will search the company name and form an opinion (which is generally incorrect).

And you lose the chance to create a memorable first impression by sharing your true and factual iXQtv stories, based on your real-world experience of using iXQtv for your personal television enjoyment.

Private Messages are Another Way to Reach People

Use Private Messages to reach your friends or people that you already know (and who know you). Contacts in the network marketing industry can be very receptive.

ONLY send messages to people you already know.

You can private message a friend or a network marketing business contact with a message like:

“If there was a way to get 5,000+ livestream channels for \$39 a month, and build a profitable livestreaming TV business at the same time, would you want to know how more about that?”

[Response is almost always YES!].

When You Get a YES Reply, Send Your Lead Capture Page Link

When the recipient of your message replies YES, send YOUR paylessforcabletv.com/USERID landing page link if you're a GPN member

or your iXQtv or Free Trial System page link if you're **not** a GPN member.

Send your link and reply with, *"Check out LINK URL, and let me know what you think about the future of TV."*

Here's a Private Message Example for Facebook

Remember, you only want to private message people you know and who know you.

Hey NAME, If there was a way to get 5,000+ livestream channels for \$39 a month, and build a profitable livestreaming TV business at the same time, would you want to know how more about that?"

WAIT FOR A YES REPLY.

*Check out paylessforcabletv.com/USERID (or your iXQtv Free Trial System page link if you're **not** a GPN Member) and let me know what you think about the future of TV.*

Now it's Time to Take **ACTION** on What You Learned

Here are your social media marketing **ACTION** steps to start taking today

Plan to post on social media at least 3 to 5 times a week to “be seen”.

If you post less frequently than that, it will be hard to get traction with Social Media Marketing.

Break up your posts between

- Sharing moments and events in your life.
- Telling stories about how you're using iXQtv for your personal enjoyment.
- And creating and sharing entertaining quotes you find about shopping.

Remember to ONLY send private messages when either:

1. Someone gives you permission on your newsfeed to message them.
2. You're sending a private message to a contact you already know (and who knows you).
