

Session 1 – Getting Started with GPN RISP Promotions using ChatGPT

Key Points from This Session

- Understand what ChatGPT Plus is and how it works.
- See how AI fits into the GPN model.
- Produce your first AI-generated outreach message

Example Prompts

1. "Explain network marketing like I'm 10 years old."
2. "Write a 2-sentence welcome message for a new teammate named Jordan."
3. "Summarize the GPN system in 3 points for a beginner."

Your Assignment

Use one of today's prompts to send a welcome message to your mentor or a team partner.

1. Explain [network marketing] like I'm 10 years old." *(purpose: simplify)*
2. "Write a 2-sentence welcome message for a new teammate named ____." *(purpose: practice a real use case)*
3. "Summarize the GPN Residual Income Success Plan system in 3 points for a beginner." *(purpose: clarity)*

Tips & Pitfalls

- Simple prompts help generate clear, effective AI responses and reduce ambiguity in content creation.
- Editing AI-generated content ensures it matches your personal voice and maintains a professional tone.
- Storing top-quality outputs helps you streamline your workflow and maintain consistency in future projects.
